Monday, September 16. 1717.

From the Paris Gazette, dated Sept. 18.

Vienna, Aug. 27.

**T**HE 22d of this Month, the Count Amadeo de Rabutin, Colonel of a Regiment of Dragoons, arriv'd at the Favorita before Noon, and brought the Emperor the News of the Capitulation of Belgrade, concluded the 18th, on which Day, Prince Alexander of Wirtemberg entered the Place, and took Possession of the Citadel, and the Outworks. This News caus'd an extraordinary Joy, and when Count Rabutin came in, all the People ran out of their Houses to see him. They having not been able yet to collect together the Colours, Standards, Horse-Tails, and Kettle-Drums, whereof a great Number were taken, Prince Eugene has deserv'd sending them, and we daily expect Count Stirum who is to bring them. The Empress Mother, accompanied by the two Archduchesses her Daughters, went the same Day to the Favorita to compliment the Emperor upon this important Victory, for which great Rejoicings were made throughout the City. The 24th, the Emperor and Empress, accompany'd by all the Court, went from the Favorita to the Cathedral Church of St. Stephen, which was magnificently adorn'd, and assist'd at the Mass celebrated pontifically by the Count de Collonisch, Bishop of Vienna, with the Deum; after which, three Royal Salvo's were made by the Artillery on the Ramparts, and the Bells of all the Churches in the City and Suburbs were rung. In the Evening their Imperial Majesties returned to the Favorita. We wait still the Particulars of many Circumstances of the Battle, the Loss of the Turks, and the Quantity of Cannon and Ammunition taken. We know only, that of that numerous Army which was above 20000 Men, no Body of Troops capable of hindering the Progress of our Army, rallied again after the Battle. There are but few Prisoners on either Side, because the Soldiers gave no Quarter; but we hear the Body of Janizaries suffer'd very much, they having made a vigorous Resistance, and stood three Attacks. We have no certain News of the Grand Vizier, who never appear'd during the whole Action; and 'tis reported, that he having fled with the first, sav'd Part of the Military Chest, and the Treasury of War was taken. Some Parties who followed the Fugitives as far as within Sight of Semendria, did not take any more; the Turks carried off a very little while they were pursuing, and did not take any more. The Emperor receiv'd Letters from Belgrade, dated the 23d, from which we learn, that the Turkish Garrison march'd out of the Town according to the Capitulation. A good Number of Ships and 300 Waggon's were furnished to the Turks, and they were allowed to buy upon the Road what they wanted, as also to sell what they would. They went at first but a little way from the Trenches, where, by Permission of Prince Eugene, they made their first Stage. We have Advice, that the Marquis de Villette died on the 20th of his Wound.

Hague, Sept. 11. The Elector of Cologne went the 8th to Dusseldorp, to wish a good Journey to the Elector's Palatine Dowager, who was to de-

part the 10th for Florence. We have Advice from Vienna, by Letters of the first Instant, that the Count de Stirum arrived there the 30th of last Month, and has brought eight Horse-Tails, 57 Colours or Standards, the Kettle-Drums of the Grand Seignior, those of the Artillery, and three other Pair, which he presented to the Emperor at the Favorita; from whence they were carried to the Cathedral Church of St. Stephen, to be there expos'd.

Paris, Sept. 18. On the 14th of this Month, the Count de Konigsek, Ambassadour of the Emperor, had a private Audience of the King, wherein he imparted to his Majesty the Victory gain'd over the Turks, and the taking of Belgrade; being conducted by the Chevalier de Saintot, Introducer of Ambassadours.

Genoa, Sept. 7. An Express arriv'd this Day from Sardignia, has brought Advice, that on the 22d of August the Spanish Forces landed early in the Morning without Opposition, 500 Imperial Horse being oblig'd to retire by reason of the Fire from the Spanish Gallies. And the same Day they encamp'd in the Plain of Lazaretto near Cagliari, and their Fleet took Station before the Town. The next Day they took Possession of the Convent of Bonaire, and the Imperialists march'd into the Suburbs, from whence they went into the Town, and the Horse dispers'd themselves in the Country, to hinder the Spaniards from supplying themselves with Provisions. That Night the Spanish Bomb Vessels approach'd, and threw in 80 Bombs. On the 24th the Spanish General march'd out of his Camp and seized some Oxen and Sheep. On the 25th they began to land their Stores for attacking the Place; which was continued on the 26th, when several Pieces of Cannon of 24 Pound Ball were landed. The Viceroy, the Marquis de Rubi, who commands in the Place, has carried the best of the Artillery into the Castle; and with his Garrison, which consists of 400 Regular Foot, and a good Number of Militia, is determin'd to hold the Place as long as possible. The People appear very well affected to the Imperial Interest; and the Town, when these Letters came away, had receiv'd but little Damage from the Enemy's Bombs. In the mean time 900 Imperialists, of the Regiment of Hamilton, with 200 Chests of Powder, are to embark here to Morrow, for Sardignia: And 1500 more are sail'd from Naples.

Paris, Sept. 18. This Day Mr. Stanhope, Envoy Extraordinary from his Britannick Majesty to the King of Spain, sets out from hence, for Madrid. We have Advice from Vienna, that the Turks have abandon'd Orsova.
